Creating beauty. Respecting nature.

A pioneer in sustainable landscape management, DeSantis Landscapes and its professional staff can contribute in significant ways to maximizing your building's operational efficiencies and minimizing environmental impacts. Our main objective is to create and maintain environments of lasting beauty.

As Oregon's first certified Eco-Biz commercial landscape contractor we have a proven track record of walking our talk. From our use of biodiesel to the organic fertilizers and compost teas to the solar panels on our company headquarters; we are a company that truly believes in maintaining safe and healthy environments for our clients and their properties.
