

## DeSantis Landscapes can help you earn up to 55% of LEED-H credits:

SS1 - Site Stewardship: erosion control, minimize disturbance

SS2 - Landscaping: no invasives, drought tolerant, low-to-no turf

SS3 - Local Heat Island Effects: ecoroofs, shade trees

SS4 - Surface Water Management: permeable surfaces, runoff management

WE1 - Water Reuse: greywater reuse, rain harvesting

WE2 - Irrigation System: high efficiency, reduce water demand in landscaping

**DeSANTIS**  
**LANDSCAPES**

Creating beauty. Respecting nature.

A pioneer in sustainable landscape management, DeSantis Landscapes and its professional staff can contribute in significant ways to maximizing your home's operational efficiencies and minimizing environmental impacts. Our main objective is to create and maintain environments of lasting beauty.

As Oregon's first certified Eco-Biz commercial landscape contractor we have a proven track record of walking our talk. From our use of biodiesel to the organic fertilizers and compost teas to the solar panels on our company headquarters; we are a company that truly believes in maintaining safe and healthy environments for our clients and their properties.
